I. Purpose

This document supersedes Chattanooga Metropolitan Airport Authority (CMAA) Board Resolutions 006, 007, 031, and 040 pertaining to commercial ground transportation at the Chattanooga Metropolitan Airport Authority. Once approved by the CMAA Board, this document (including fares and fees) may be updated and/or modified with the approval of the airport president.

The Chattanooga Metropolitan Airport Authority (CMAA) was created in July of 1985 by the Chattanooga City Commission, acting pursuant to the Tennessee Metropolitan Airport Authority Act, originally enacted in 1969. This act provides that CMAA's basic operations are governed by the terms set forth in the Metropolitan Airport Authority act, as well as by the CMAA By-Laws. As a separate legal entity, the CMAA is authorized to adopt operating procedures, policies and requirements separate from those in use by the City of Chattanooga. Additionally, the Tennessee Passenger Transportation Services Act provides explicit authority for the CMAA's regulation, by Resolution, of each private passenger for hire vehicle providing transportation services.

In addition to the requirements of the CMAA By-laws, 49 U.S.C. 47107(a) (13) (federal airport grant assurances), requires airports that accept federal money to be as self-sustaining as possible under the circumstances at the airport. Because the CMAA does not receive local tax dollars, CMAA must raise money through other means. This is done through contracts, licenses, permits and leases issued by CMAA to both aeronautical and non-aeronautical airport users, and through fees charged to offset the cost of regulation of certain activities.

Fees will be charged by CMAA for any business providing commercial ground transportation services originating at the airport. This includes, but is not limited to, providing courtesy car service, taxi, charter vehicles, motor bus, and baggage delivery service. These fees will assist in covering the cost of regulation of these commercial activities, and assist in defraying the expense of providing certain facilities, benefits, and services to the parties paying the fees, including but not limited to, the airport roads, curbs, special parking facilities, traffic control, snow removal, lights and other related facilities and services used directly and indirectly by and which directly and indirectly benefit commercial ground transportation vehicles.

Any person conducting a commercial ground transportation function originating at the airport must have authorization for such activities under terms of a lease, contract or permit with the CMAA. Such operations are limited to parking locations and procedures as set forth in these regulations and specific written agreements with the CMAA.

II. Definitions

Access Permit or Permit (Ground Transportation Permit Agreement): A written contract in the form of a permit and/or a decal issued by CMAA. An Access Permit authorizes the commercial ground transportation operator to have access to airport property including, but not limited to, the airline terminal and the airport roadway system for the purpose of picking up passengers and/or property in designated areas for the purpose of providing the transport of persons or property in a commercial vehicle.

Airport: The lands and developments known as Lovell Field owned by the Chattanooga Metropolitan Airport Authority, and said airport consisting of runways, taxiways, hangars, aprons, buildings, structures, roads, streets, parking and storage areas, improvements, facilities, or other real property necessary or convenient or desirable for the landing, takeoff, accommodations and servicing of aircraft of all types.

Airport Roadways: Those vehicular ways on airport property designated and made available temporarily or permanently by the Authority as ways to which the public has the right of access, within the meaning of the laws of the State of Tennessee, applicable to regulations of motor vehicles.

Authority: The Chattanooga Metropolitan Airport Authority

Baggage Delivery Vehicle: Any vehicle used solely for the purpose of delivering baggage.

Bus: A motor vehicle with capacity for not less than thirteen (13) passengers, authorized to transport passengers for hire over public ways by way of specified routes and on a specific schedule with the Airport as a designated intermediate stop and with Certificates of Convenience and Necessity issued by the Tennessee Public Service Commission and having an operating agreement with the Authority.

Charter: Any motor vehicle making prearranged casual trips under contract with the party served for the carrying of passengers, provided that on said casual trips no operator shall be allowed to pick up any additional passengers along the route, nor be permitted on the return trip to carry any passenger other than those prearranged and scheduled in the original trip plan.

Commercial Ground Transportation Operator or Operator: The owner or other person, firm, or corporation, or its agents, servants or employees, operating or engaging in any type of commercial ground transportation services or any person who has rented commercial vehicle(s) for the purpose of providing commercial ground transportation services by him/her, his/her own agents, or employees.

Commercial Ground Transportation Service: The act of providing the carriage of persons or property for a commercial entity, regardless of whether the charge for such service is paid for, either directly or indirectly, by the customer being serviced.

Commercial Vehicle or Vehicle: Any vehicle engaged in transporting persons or property for a commercial entity, regardless of whether the charge for such service is paid for, either directly or indirectly, by the customer being served. Such vehicles shall include, without limitation, taxicabs, shuttle vehicles, buses, vans, limousines, courtesy vehicles, baggage delivery service vehicles, and rental vehicles.

Commercial Vehicle Staging Area: The area designated by the airport president or his/her designee for the parking or queuing of commercial vehicles.

Commercial Vehicle Loading/Unloading Areas: The areas designated by the airport president for loading and unloading passengers and/or property.

Corporate Shuttle: A vehicle owned/leased and operated by employees of a company, used solely for the purpose of transporting employees and/or customers of the company at no cost to the individual.

Courtesy Vehicle: Any motor vehicle not otherwise defined herein being used regularly for the transportation of customers or baggage between the airport and any motel, hotel, auto rental office or parking lot as a courtesy provided by such facilities which are not located on airport property.

Decal: The visible evidence of an Access Permit, issued in the form of a sticker to be affixed to a commercial vehicle on the area of the vehicle designated by the Commercial Ground Transportation Rules and Regulations, for the purpose of identifying the vehicle as being a commercial ground transportation vehicle which is authorized to have access to airport property for the purposes of providing the transport of persons or property to or from the airport.

Delivery Vehicle: Any motor vehicle that comes to the airport to provide products or services to an airport tenant. (Ex: Coke delivery truck, office supply delivery truck, etc.)

Driver: The person operating a commercial vehicle.

Ground Transportation Coordinator: The CMAA staff person assigned to oversee commercial ground transportation operations.

LEO: Law enforcement officers assigned duty at the airport, or any other state, federal, county or local law enforcement officer temporarily assigned duty at the airport.

Limousine: Every vehicle designed and/or constructed to accommodate and transport passengers, not more than 12 in number exclusive of the driver.

Operator: Shall mean and include the owner or other person, firm, or corporation operating or controlling the operations of one or more vehicles or any person who has rented such vehicle(s) for the purpose of operation by his or her own agents.

Person: Any individual, firm, partnership, corporation, association or company (including any assignee, receiver, trustee or similar representative thereof) of the United States of America or a foreign government, or any state or political sub-division thereof, or the United States.

President: The CMAA President appointed by the CMAA Board of Directors and charged with the duty to administer, protect, control, govern, and superintend Lovell Field, or his/her duly-authorized representative.

Shared Ride: A company that operates a vehicle for hire on a fixed route with pre-established stops for a fixed price.

Solicitation: Written or verbal communicating, approaching or initiating a conversation with any person on airport property, or in any way employing or inducing any other person to approach or initiate a conversation with any person on airport property, other than a person whose transportation by a commercial ground transportation operator has been arranged prior to that operator's entry onto airport property, for the purpose of seeking passengers or customers for the business of a commercial ground transportation operator.

Taxicab: Every motor vehicle designed and/or constructed to accommodate and transport passengers, not more than six (6) in number, exclusive of the driver, and fitted with a taximeter and/or using or having some other device, method or system, to indicate and determine the passenger fare charged for distance traveled, and

the principal operations of which taxicabs are confined to the area within the corporate limits of cities and suburban territories adjacent thereto.

Taximeter: A mechanical instrument or device by which the charge for hire is calculated, either for distance traveled or by waiting time or both, and upon which such charge shall be indicated by figures, such meter to be illuminated so that such charge is clearly and conveniently visible to the passenger.

Terminal: The passenger terminal building at the airport

Transportation Network Company (“TNC”): A company operating at the Chattanooga Airport that uses a digital network or software application to connect a passenger to the Transportation Network Services provided by a Transportation Network Operator.

Transportation Network Operator (“TNC Operator”): An individual who operates a motor vehicle that is:

- (a) Owned, leased, or otherwise authorized for use by the individual;
- (b) Not licensed as a public vehicle-for-hire under Art. III et seq. of this Code of Ordinances; and
- (c) Used to provide Transportation Network Services

Transportation Network Vehicle: Any vehicle used to provide a transportation network service.

Vehicle: Shall mean and include automobiles, trucks, buses, motorcycles, and any other devices in or upon or by which any person or property is or may be transported, carried or drawn upon land, except railroad rolling equipment or other device running on rails or tracks, on the airport roadway system or parking lots (to include queuing areas).

III. General Operating Requirements

A. Good Standing

All commercial ground transportation operators must remain in good standing. The CMAA may, in its sole discretion, deny any Application to Provide Commercial Ground Transportation (Appendix 1) if, in its opinion, the CMAA President or his/her designee finds any one or more of the following:

1. The applicant has either intentionally or unintentionally misrepresented or omitted any material fact in the application or in supporting documents.
2. The applicant has a record of violating the rules and regulations of this or any other airport.
3. The applicant has defaulted in the performance of an agreement with the CMAA.
4. Driver has been convicted of a felony, or a misdemeanor involving moral turpitude.
5. The applicant has, in the opinion of CMAA, not satisfactorily resolved or explained any complaint lodged with the CMAA regarding applicant's service.
6. The applicant has violated, on one or more occasions, any existing rule or regulation of CMAA.

B. Valid License

Any driver of a vehicle providing transportation for hire, or operating a courtesy vehicle must possess and maintain a valid driver's license with the proper endorsements for the type of commercial ground transportation service being provided. In the case of a class D vehicle, the driver is required to have a regular driver's license with an F endorsement. Drivers of class B vehicles (such as buses) require a CDL. This license must be on the driver's person at all times while conducting a commercial ground transportation function.

C. Operating Fees

The following fee schedule will be applied to all commercial ground transportation vehicles conducting pick-ups from the curb at the Chattanooga Metropolitan Airport:

| | |
|---------------------------------|--|
| Taxi Cabs | \$105.00 per vehicle per quarter |
| Limousines | \$105.00 per vehicle per quarter |
| Courtesy Cars/Vans | \$105.00 per company per quarter |
| Shared Ride | \$105.00 per vehicle per quarter |
| Buses | \$105.00 per vehicle per quarter |
| Non-registered Vehicles | \$52.50 per vehicle per visited Vehicles |
| Baggage Delivery | \$105.00 per vehicle per quarter |
| Overnight Terminal Parking | \$6.30 per vehicle per night |
| Transportation Network Operator | Yearly contracted fee |

Delivery vehicles are specifically excluded.

Operating fees and inspections are due on or before 3:30 p.m. the first day of each quarter (January 1st, April 1st, July 1st and October 1st). If the first day of the new quarter falls on a holiday or a weekend,

then payment is due before close of business on the last business day of the current quarter. The permit/decal will be valid for a period of one quarter, and will be color coded for ease of recognition. All companies are subject to a financial audit by CMAA. These fees are imposed both for the purpose of regulating commercial activity on CMAA property, and in order to defray the costs of providing services and benefits to the parties paying the fees.

D. Display of Permit/Decal

Any vehicle engaged in revenue producing activity (passenger pick-up from the curb, baggage delivery, etc.) at the airport is required to display a valid CMAA permit/decal on the vehicle's upper right (passenger side) corner of the windshield. This permit is non-transferable, and must be removed if the vehicle is sold or removed from service. Arrangements can be made through the ground transportation coordinator for a replacement permit/decal. The cost for each replacement decal is \$10.00. TNC vehicles are not required to display a decal.

E. Meters/Fare Rates

Limousine operators must have published rates. A copy of the current rates must be provided to CMAA.

F. Airline Transportation Vouchers

Airline Transportation vouchers may only be issued to these commercial ground transportation operators who have been permitted by CMAA. All taxicabs and limousines registered with CMAA must accept airline vouchers. It is the responsibility of the driver providing the transportation to collect the voucher from the passenger. Only one voucher per vehicle per trip may be submitted for reimbursement. These vouchers should be treated like cash. Airline personnel are not able to re-issue or print duplicates for lost vouchers or vouchers that were never collected. (See Appendix 3 for a sample Voucher Reimbursement Form and Appendix 4 for sample vouchers from each air carrier.)

Taxicabs providing airline passenger transportation between airports must abide by the rates listed in Appendix 2. Any other operator providing airline passenger(s) transportation to another airport must establish a flat rate for the trip prior to transporting passenger(s). If a rate is not established, the rates published in Appendix 2 apply. (**Note: It is the responsibility of the ground transportation provider to establish the rate each time transportation is provided.**)

All voucher reimbursement requests must be submitted on a Voucher Reimbursement Form. This form is available through the airline, or through the CMAA ground transportation coordinator.

G. Operation of Vehicles

Commercial ground transportation vehicles shall be operated in strict compliance with all applicable traffic/parking regulations and security protocols in effect at CMAA including, but not limited to, stop signs, speed limits, and use of restricted/reserved parking areas.

No person shall park a vehicle in a manner so as to obstruct roadways, passenger flow, or in any location other than a designated parking space/lot.

H. Queuing Area

Any permitted vehicle (see B., and C., above) vehicle picking up passengers shall use only the hold area or loading area assigned to them as designated in Appendix 6. These areas are for the exclusive use of commercial ground transportation vehicles registered with CMAA. Non-registered taxi cabs may drop off passengers on the curb, but are prohibited from picking up passengers on the curb. A TNC Operator not picking up a passenger shall at all times use the Auxiliary Parking Lot or pay parking until a Transportation Network Service has been initiated.

I. Disciplinary Action

It is the goal of CMAA administration to work with all commercial ground transportation providers to address any issue that may arise. However, it is the responsibility of the ground transportation coordinator/Airport Police to enforce the rules and regulations outlined in this document, and take corrective action should he/she witness, or be made aware of a violation. Any violation of the rules and regulations outlined in this document may result in disciplinary action. The type of disciplinary action taken will depend on the situation and the circumstances surrounding the violation, to include security procedures in place at the time of the violation. The progressive discipline process is outlined below.

| | |
|-----------------|-----------------------------------|
| First Offense: | Verbal warning/24 hour suspension |
| Second Offense: | 48 hour suspension |
| Third Offense: | 7 day suspension |
| Fourth Offense: | 30 day suspension |

The disciplinary steps above should be considered a guideline only. Depending on the details of the violation, it is up to the ground transportation coordinator to determine the appropriate disciplinary action for any given offense. Offense records will remain on file. All records on file are subject to review when a disciplinary action is being considered.

Appeals to disciplinary action must be in writing to the individual hearing the appeal. The request for appeal must specify the reason for the appeal and must provide all necessary supporting documentation (if applicable). Appeals to the decision of the ground transportation coordinator will be heard by the CMAA Vice President of Operations or his/her designee. Appeals to the decision of the CMAA Vice President of Operations will be heard by the CMAA President and CEO. Appeals to the decision of the CMAA President and CEO will be heard by CMAA Board of Commissioners. Non-registered taxicabs are subject to the issuance of citations, as appropriate.

J. Aviation Security

Any of the rules and regulations described in this document may be immediately altered should airport administration receive security guidance from the Transportation Security Administration. Drivers and operators will be notified of any change in procedure if this occurs.

K. Loitering

Upon entry into the Airport without a passenger(s) or after discharging a passenger(s) at the airport, each vehicle shall proceed at once by the most direct route to the proper queuing area, parking lot or stand or immediately leave the airport. No vehicle operator and associated vehicle may loiter on the curb. This includes waiting for delayed passengers.

L. Repairs

No person shall clean or make any repairs to motor vehicles anywhere on the airport property other than in designated shop areas, except minor repairs necessary to remove such motor vehicle(s) from the airport property. Nor shall any person move, interfere with or tamper with any motor vehicle part, instrument, or tool thereof, without permission of the owner or satisfactory evidence of the right to do so duly presented to the ground transportation coordinator or his/her designee.

M. Littering

Placing, throwing, or dropping of waste, refuse or rubbish upon the grounds or roadways of the airport is prohibited.

N. Abandoned Vehicles

No person shall abandon any motor vehicle on airport property.

O. Towing of Vehicles

The president or his/her designee shall have the authority to tow or otherwise move vehicles which are parked by their owners or operators on the airport property in violation of the regulations of the authority, state or local laws or with disregard for safety, at the operator's expense and without liability for damage which may result in the course of such moving. This includes towing for any security related reason.

P. Accidents

The driver of any vehicle involved in an accident on Airport property resulting in injury to any person or damage to any vehicle or property shall immediately stop such vehicle at the scene of the accident and report such to Airport police dispatch at 423-855-2204. The operator of such vehicle, within a reasonable time after the occurrence, shall make other reports as may be required by and in accordance with federal, state and municipal laws and regulations.

Q. Replacement Vehicles

If a CMAA approved vehicle is in the shop, a temporary replacement vehicle meeting the standards outlined in this document may be used. The ground transportation coordinator must be notified of the situation and will set up an appointment to conduct an inspection on the temporary vehicle. A "Temporary Vehicle Authorization" form (see Appendix 7) will be provided to the vehicle owner/operator and must be displayed at all times while conducting business at CMAA.

R. Non-Discrimination

No commercial ground transportation provider may refuse or neglect to transport to any location any passenger requesting service on the basis of race, sex, national origin, religion, age, disability, short haul, or location of destination, so long as the person(s) are orderly and willing and able to pay the prescribed fare. Airline vouchers are considered a legitimate form of payment.

S. Non-registered Vehicles

Non-registered vehicles shall be required to comply with Section III, paragraphs G., H., J., K., L., M., N., O. and P., and Section V, paragraphs J., K., and L. of these Regulations. Non-registered taxi cabs are prohibited from conducting pick-ups on the curb.

IV. Code of Conduct

- A. Drivers are not permitted to loiter inside the terminal building. However, this does not preclude drivers from manning rented booth/counter space in baggage claim, checking in with airline ticket counters, or checking the status of a flight on the monitors. Drivers of courtesy vehicles may wait for arriving flights as long as they have a professional looking sign with the name of the company or event and the passenger's name. Drivers may enter the terminal for use of bathroom facilities, to visit the Airport restaurant or gift shop, or to visit CMAA offices. They are specifically prohibited from loitering anywhere inside the baggage claim area, in the entrance ways to the baggage claim area, or at the counters of other ground transportation providers.
- B. No owner or operator of a commercial ground transportation vehicle may at any time while on Airport property, by words, gestures, or otherwise, solicit, persuade or urge any person to use or hire any type of commercial ground transportation. If a passenger initiates a conversation with a commercial ground transportation provider, other providers are prohibited from approaching the passenger. No commercial ground transportation provider may initiate any contact with a passenger unless the following conditions are met:
1. Driver/operator is manning leasehold
 2. Driver/operator is within 10' of his/her commercial ground transportation vehicle
 3. Driver of a courtesy vehicle is displaying a sign with the name of an event or passenger's name and is approached by a passenger
- C. Loud or disorderly conduct is prohibited. This specifically includes disagreements or altercations with other ground transportation providers. Report problems to the Airport Police at 423-855-2204 immediately.
- D. Profane, abusive, sexually explicit or ethnically offensive language is deemed to be unprofessional behavior, and will not be tolerated on airport property or while carrying passengers to and from the airport.
- E. Drivers are prohibited from parking in any areas other than those which have been specifically designated for their operations. No driver shall stop or park a vehicle in a manner to interfere with traffic, both vehicle and pedestrian, while on airport property.
- F. Drivers are to cooperate with CMAA staff, and to obey all lawful orders given by airport police, including the display of licenses, permits, and proof of insurance, upon request.
- G. Drivers are prohibited from performing mechanical work on their vehicles anywhere on Airport property. (This does not apply to the changing of a flat tire.)
- H. Drivers are prohibited from overcharging fares, refusing fares due to the length of trip, or refusing voucher fares.

- I. Drivers shall have the right to refuse transport to abusive, disorderly, or otherwise potentially dangerous subjects. Airport Police should be called so as to document the incident for the driver's legal protection.
- J. The use of intoxicants, controlled substances, or any drug/product impairing the driver's ability to drive while on duty is forbidden, and may result in arrest and prosecution.
- K. Passenger complaints will be reviewed by the CMAA ground transportation coordinator and may result in disciplinary action.
- L. All commercial ground transportation operators (drivers and owners) will be required to sign a disclaimer stating they have received, read, and agrees to comply with the CMAA Commercial Ground Transportation Rules and Regulations.
- M. It is the responsibility of each commercial ground transportation driver/operator to report any violation of these rules and regulations to airport police dispatch at 423-855-2204.
- N. Commercial ground transportation providers are to conduct themselves in a professional manner at all times.

V. Taxi Cabs

These requirements shall be in addition to any basic and minimum requirements established for taxis generally by the Passenger Vehicle for Hire Board of the City of Chattanooga. Nothing in this document is intended to replace, annul, or in any other manner circumvent regulations for taxicab operation as promulgated by the Passenger Vehicle for Hire Board of the City of Chattanooga. These policies will become specific part of any future exclusive taxicab operating contract or legal agreement entered into between the Chattanooga Metropolitan Airport Authority and a taxicab company. Nothing in these policies is intended in any way to interfere with the lawful operation of business and/or the legitimate pursuit of commercial operations by non-registered taxicabs at the Chattanooga Airport.

A. Age of Vehicles

Any vehicle older than 10 years will be evaluated on a case by case basis by the CMAA Ground Transportation Coordinator.

B. Condition of Vehicles

All vehicles shall be maintained in good condition at all times this shall include, but is not limited to, all of the following:

1. Operable horn.
2. Rear view mirror.
3. No foul odor.
4. Paint must match (be of the same color).
5. No rust.
6. Free of exterior body damage, and cracks in the windshield greater than 1”.
7. Properly functioning headlights, tail lights, turn signals, brake lights, emergency flashers, and windshield wipers.
8. Properly functioning environmental control system (heat/air conditioning)
9. Properly functioning seatbelts/safety restraints for all seating positions, including driver’s seat.
10. No fluid leaks of any kind (excluding the condensation caused by the air conditioner), nor any obvious pollution control problems
11. Tires shall have a minimum tread depth of 3/32 inch, with no steel, wire, or other such reinforcing material visible.
12. Trunk areas are to be kept clean, and available for storage of luggage. They must be secure at all times.
13. Clean and tear-free interior.
14. Proper exhaust system, muffler.
15. Each taxicab must display on the outside of the vehicle the name of the company and the taxi number.

Vehicles with minor body damage may be allowed to continue operating at the discretion of the inspecting official if arrangements for repair have been made.

All taxis are to be maintained in a clean condition, both interior and exterior, free of any dirt or debris, except such as is normal due to certain weather conditions.

C. Inspection of Vehicles

All taxi cabs will be inspected by a CMAA employee (to possibly include, but not be limited to, airport police, airport maintenance or airport operations) to verify compliance with the above

requirements. Vehicles that fail to pass inspection will be immediately removed from service at the airport, and may not be utilized until such inspection is passed. Failed vehicles must wait 72 hours before re-inspection.

D. Identification of Vehicles

Each taxi shall have permanent markings on each side of the vehicle indicating both the name and telephone number of the taxi company, and a cab number displayed on the rear.

E. Driver Appearance

All drivers should be well-groomed and neat in appearance. No t-shirts, cut-off jeans, or tank tops will be permitted. CMAA reserves the right to make a driver leave CMAA property if, in the opinion of the CMAA representative, the clothing does not present a professional image.

F. Driver Conduct

Drivers are to present a professional demeanor at all times, both in dealings with the public and with CMAA personnel. All drivers shall conform to, and be responsible for adhering to, the "CMAA Code of Conduct for Commercial Ground Transportation Providers" found in section IV.

G. Drivers to Remain with Vehicles

Drivers must remain at their vehicles at all times, except for use of restroom facilities, visits to restaurant/gift shop, visits to CMAA office(s) or commercial ground transportation leasehold(s) for the purpose of staffing the office/counter or checking the status of a flight. This does not preclude drivers from sitting on the benches outside of baggage claim.

H. Documentation Requirements

All drivers are to have on their person a valid driver's license with all appropriate endorsements for the operation/type of vehicle being operated. The City of Chattanooga Taxi License is to be on the driver's person at all times. A copy of current insurance and registration is to be in the vehicle at all times. This insurance must meet all state and local requirements.

I. Fares

No owner or driver of a taxicab shall charge greater sum for the use of a taxicab than the rates set below:

(a) There is hereby established a maximum rate to be charged for taxicab service. The maximum charge for actuating the meter shall be no greater than two dollars and fifty cents (\$2.50). The maximum charge for each one-tenth of a mile thereafter shall be no greater than twenty cents (\$0.20).

(b) All taxicab drivers shall drive the shortest and most direct route in transporting a passenger from the point of pick-up to the point of destination unless requested otherwise by the passenger.

(c) There will be an additional charge for waiting time which shall be forty cents (\$0.40) for each one (1) minute of waiting. Waiting time shall be charged only for stops or delays caused by the passenger(s) and shall not apply to stops or delays due to any other circumstances.

(d) The above established rate shall apply to all fares originating and terminating at the Chattanooga Metropolitan Airport.

No taxicab driver shall permit, except as otherwise provided in this article, any other person to occupy or ride in such taxicab unless the person first employing the taxicab shall consent to the acceptance of additional passengers. There is hereby authorized a charge for additional passengers not to exceed five dollars (\$5.00) per passenger when such passenger is accompanying the original passenger and proceeding to the same destination. When the additional passenger rides beyond the original passenger's destination he shall be charged only for the additional distance so traveled.

J. Queuing

There are a limited number of queuing slots available. If there are no queuing spots available when a driver enters the airport roadway system, the driver is to return at a later time. Double parking or parking in a spot that is not designated as a taxi queuing area is not permitted. Drivers may utilize any of the airport parking lots to wait for a spot in the queue to open, however the driver will be responsible for the parking fee. Under no circumstances may a queuing slot be used by a non-registered taxicab.

All vehicles must advance to the next spot in the queue when the first vehicle in line departs. Any vehicle departing the queue line must re-enter the queue at the back of the line.

K. Package Delivery

Any CMAA registered taxi being dispatched to the airport for a package may park in the baggage delivery area. The cab shall perform only the service for which dispatched, and must immediately depart airport property once that task is complete. Should the driver wish to remain at the airport, he/she must leave the immediate area and proceed to the taxicab hold area and await his/her turn to re-enter for a commercial passenger pickup. Non-registered taxicabs being dispatched to the airport for a package must use one of the CMAA parking lots.

L. Non-Registered Taxi Pick-Ups

If a taxicab company that is not registered with CMAA is requested to provide transportation, the taxicab driver must park the taxicab in one of the on-site parking lots. The cab driver may meet his/her passenger at the bottom of the escalators with a professional looking sign with the name of the cab company, the passenger's name, and the passenger's airline and flight number.

CMAA will not reimburse any driver or company for parking fees. No loitering on the curb will be permitted. This information is subject to verification by CMAA staff. Any non-registered vehicle and operator not complying with this policy will be removed from the airport premises, and will be charged the \$50 non-registered vehicle fee as set forth in section III.

VI. Limousine and Sedan Service

A. Age of Vehicles

Any vehicle older than 10 years will be evaluated on a case by case basis by the CMAA Ground Transportation Coordinator.

B. Condition of Vehicles

All vehicles shall be maintained in good condition at all times this shall include, but is not limited to, all of the following:

1. Operable horn.
2. Rear view mirror.
3. No foul odor.
4. Paint must match (be of the same color).
5. No rust.
6. Free of exterior body damage, and cracks in the windshield greater than 1”.
7. Properly functioning headlights, tail lights, turn signals, brake lights, emergency flashers, and windshield wipers.
8. Properly functioning environmental control system (heat/air conditioning)
9. Properly functioning seatbelts/safety restraints for all seating positions, including driver’s seat.
10. No fluid leaks of any kind (excluding the condensation caused by the air conditioner), nor any obvious pollution control problems
11. Tires shall have a minimum tread depth of 3/32 inch, with no steel, wire, or other such reinforcing material visible.
12. Trunk areas are to be kept clean, and available for storage of luggage. They must be secure at all times.
13. Clean and tear-free interior.
14. Proper exhaust system, muffler.

Vehicles with minor body damage may be allowed to continue operating at the discretion of the inspecting official if arrangements for repair have been made.

All vehicles are to be maintained in a clean condition, both interior and exterior, free of any dirt or debris, except such as is normal due to certain weather conditions.

C. Federal Motor Carrier Safety Administration

This section is applicable to vehicles that are used at any time during the permit period in interstate commerce.

This section will apply to all newly registered vehicles at the time of registration. Vehicles currently registered with CMAA will have until the first inspection following CMAA Board approval of these regulations to comply.

49 CFR Part 390.5 defines a commercial motor vehicle (see below):

Commercial motor vehicle means any self-propelled or towed motor vehicle used on a highway in interstate commerce to transport passengers or property when the vehicle—

- (1) Has a gross vehicle weight rating or gross combination weight rating, or gross vehicle weight or gross combination weight, of 4,536 kg (10,001 pounds) or more, whichever is greater; or
- (2) Is designed or used to transport more than 8 passengers (including the driver) for compensation; or
- (3) Is designed or used to transport more than 15 passengers, including the driver, and is not used to transport passengers for compensation; or
- (4) Is used in transporting material found by the Secretary of Transportation to be hazardous under 49 U.S.C. 5103 and transported in a quantity requiring placarding under regulations prescribed by the Secretary under 49 CFR, subtitle B, chapter I, subchapter C.

Any vehicle or operation falling under this definition must meet the federal requirements including, but not limited to:

1. Carry the federally mandated insurance (a certificate of insurance must be provided to CMAA for each inspection period)
2. Maintain, and have available for inspection by any member of CMAA staff a driver log book
3. Maintain an MC and DOT number (to include proper documentation of such numbers in each vehicle)

D. Inspection of Vehicles

All vehicles will be inspected by CMAA employees (to possibly include, but not be limited to, airport police, airport maintenance or airport operations) to verify compliance with the above aesthetic requirements. Vehicles that fail to pass inspection will be immediately removed from service at the airport, and may not be utilized until such inspection is passed. Failed vehicles must wait 72 hours before re-inspection.

Tennessee Code Annotated 55-4-112 requires limos and sedans to display commercial bus plates which range from commercial bus plate 1 through commercial bus plate 5.

E. Driver Appearance

All drivers should be well-groomed and neat in appearance. No t-shirts, cut-off jeans, or tank tops will be permitted. CMAA reserves the right to make a driver leave CMAA property if, in the opinion of the CMAA representative, the clothing does not present a professional image.

F. Driver Conduct

Drivers are to present a professional demeanor at all times, both in dealings with the public and with CMAA personnel. All drivers shall conform to, and be responsible for adhering to, the "CMAA Code of Conduct for Commercial Ground Transportation Providers" found in section IV.

G. Drivers to Remain with Vehicles

Drivers must remain at their vehicles at all times, except for use of restroom facilities, visits to restaurant/gift shop, visits to CMAA office(s) or commercial ground transportation leasehold(s) for the purpose of staffing the office/counter or checking the status of a flight.

H. Meet and Greet

Drivers may meet pre-arranged passenger at the bottom of the escalators with a professional looking sign with the name of the ground transportation company providing service, the passenger's name. The passenger's airline and flight number must be provided if requested.

I. Documentation Requirements

All drivers are to have on their person a valid driver's license with all appropriate endorsements for the operation/type of vehicle being operated. A copy of current insurance and registration is to be in the vehicle at all times. This insurance must meet all state and local requirements.

J. Non-Registered Limousine and Sedan Pick-Ups

If a limousine or sedan company that is not registered with CMAA is requested to provide transportation, the driver of the non-registered vehicle must park the vehicle in one of the on-site parking lots. The driver may meet his/her passenger at the bottom of the escalators with a professional looking sign with the name of the company, the passenger's name, and the passenger's airline and flight number.

CMAA will not reimburse any driver or company for parking fees. No loitering on the curb will be permitted. This information is subject to verification by CMAA staff. Any non-registered vehicle and operator not complying with this policy will be removed from the airport premises, and will be charged the \$50 non-registered vehicle fee as set forth in section III.

K. Limousine and Sedan Rates

All limo and sedan rates are based on an hourly charge. The rates schedules (below) represent the maximum allowable charge per hour (to include minimum charges), and rates for transportation of stranded airline passengers where request for transportation is initiated by the airline. These rates schedules are not intended to prevent operators from charging less. All rates are per trip, not per passenger. If a destination is not included on the list of approved flat rates, the fare for a destination with similar travel time must be used.

| | Hourly Charge | Minimum Charge May not Exceed | |
|-------------------|---------------|-------------------------------|-------------------|
| Sedan | \$60 | 2 hours | |
| 8 Passenger Limo | \$90 | 3 hours | |
| 14 Passenger Limo | \$150 | 4 hours | |
| | Sedan | 8 Passenger Limo | 14 Passenger Limo |
| Atlanta, GA | \$250 | \$360 | \$600 |
| Birmingham, AL | \$250 | \$360 | \$600 |

| | | | |
|----------------|-------|-------|-------|
| Huntsville, AL | \$250 | \$360 | \$600 |
| Knoxville, TN | \$250 | \$315 | \$525 |
| Nashville, TN | \$250 | \$360 | \$600 |

VII. Courtesy Vehicle (Hotel/Motel/Car Rental Shuttle vehicles, etc.)

A. Age of Vehicles

Any vehicle older than 10 years will be evaluated on a case by case basis by the CMAA Ground Transportation Coordinator.

B. Condition of Vehicles

All vehicles shall be maintained in good condition at all times this shall include, but is not limited to, all of the following:

1. Operable Horn
2. Rear view mirror
3. No Foul odor
4. Paint must match (be of the same color)
5. No rust
6. Free of exterior body damage, and cracks in the windshield greater than 1”.
7. Properly functioning headlights, tail lights, turn signals, brake lights, emergency flashers, and windshield wipers
8. Properly functioning environmental control system (heat/air conditioning)
9. Properly functioning seatbelts/safety restraints for all seating positions, including driver’s seat.
10. No fluid leaks of any kind (excluding the condensation caused by the air conditioner), nor any obvious pollution control problems
11. Tires shall have a minimum tread depth of 3/32 inch, with no steel, wire, or other such reinforcing material visible.
12. Trunk areas are to be kept clean, and available for storage of luggage. They must be kept secure at all times.
13. Clean and tear-free interior.
14. Proper exhaust system, muffler.
15. Each courtesy vehicle must display on the outside of the vehicle the name of the company.

All courtesy vehicles are to be maintained in a clean condition, both interior and exterior, free of any dirt or debris, except such as is normal due to certain weather conditions.

C. Inspection of Vehicles

All courtesy vehicles will be inspected by CMAA employees (to possibly include, but not be limited to, Airport Police, airport maintenance or airport operations) to verify compliance with the above requirements. Vehicles that fail to pass inspection will be immediately removed from service at the airport, and may not be utilized until such inspection is passed. Failed vehicles must wait 72 hours before re-inspection.

D. Driver Appearance

All drivers should be well-groomed and neat in appearance. No t-shirts, cut-off jeans, or tank tops will be permitted. CMAA reserves the right to make a driver leave CMAA property if, in the opinion of the CMAA representative, the clothing does not present a professional image.

E. Driver Conduct

Drivers are to present a professional demeanor at all times, both in dealings with the public and with CMAA personnel. All drivers shall conform to, and be responsible for adhering to, the “CMAA Code of Conduct for Commercial Ground Transportation Providers” found in section IV.

F. Drivers to Remain with Vehicles

Drivers must remain at their vehicles at all times, except for use of restroom facilities, visits to restaurant/gift shop, visits to CMAA office(s), check on the status of a flight or to wait for a passenger. If waiting for a passenger, the driver must display a professional looking sign with the name of the company or event and the name of the passenger. Drivers may not be away from their vehicles for more than 10 minutes.

G. Documentation Requirements

All drivers are to have on their person a valid driver’s license with all appropriate endorsements for the operation/type of vehicle being operated. A copy of current insurance and registration is to be in the vehicle at all times. This insurance must meet all state and local requirements.

VIII. Shared Ride

This section (VIII Shared Ride) will apply to all newly registered vehicles at the time of registration. Vehicles currently registered with CMAA will have until the first inspection following CMAA Board approval of these regulations to comply.

A. Age of Vehicles

Any vehicle older than 10 years will be evaluated on a case by case basis by the CMAA Ground Transportation Coordinator.

B. Condition of Vehicles

All vehicles shall be maintained in good condition at all times this shall include, but is not limited to, all of the following:

1. Operable Horn
2. Rear view mirror
3. No Foul odor
4. Paint must match (be of the same color)
5. No rust
6. Free of exterior body damage, and cracks in the windshield greater than 1”.
7. Properly functioning headlights, tail lights, turn signals, brake lights, emergency flashers, and windshield wipers
8. Properly functioning environmental control system (heat/air conditioning)
9. Properly functioning seatbelts/safety restraints for all seating positions, including driver’s seat.
10. No fluid leaks of any kind (excluding the condensation caused by the air conditioner), nor any obvious pollution control problems
11. Tires shall have a minimum tread depth of 3/32 inch, with no steel, wire, or other such reinforcing material visible.
12. Luggage storage areas are to be kept clean, and available for storage of luggage. They must be kept secure at all times.
13. Clean and tear-free interior.
14. Proper exhaust system, muffler.
15. Each shared ride vehicle must display on the outside of the vehicle the name of the company and the vehicle number. A US DOT number must also be clearly marked if applicable.

Vehicles with minor body damage may be allowed to continue operating at the discretion of the inspecting official if arrangements for repair have been made.

All shared ride vehicles are to be maintained in a clean condition, both interior and exterior, free of any dirt or debris, except such as is normal due to certain weather conditions.

C. Federal Motor Carrier Safety Administration

This section is applicable to vehicles that are used at any time during the permit period in interstate commerce.

49 CFR Part 390.5 defines a commercial motor vehicle (see below):

Commercial motor vehicle means any self-propelled or towed motor vehicle used on a highway in interstate commerce to transport passengers or property when the vehicle—

- (1) Has a gross vehicle weight rating or gross combination weight rating, or gross vehicle weight or gross combination weight, of 4,536 kg (10,001 pounds) or more, whichever is greater; or
- (2) Is designed or used to transport more than 8 passengers (including the driver) for compensation; or
- (3) Is designed or used to transport more than 15 passengers, including the driver, and is not used to transport passengers for compensation; or
- (4) Is used in transporting material found by the Secretary of Transportation to be hazardous under 49 U.S.C. 5103 and transported in a quantity requiring placarding under regulations prescribed by the Secretary under 49 CFR, subtitle B, chapter I subchapter C.

Any vehicle or operation falling under this definition must meet the federal requirements including, but not limited to:

1. Carry the federally mandated insurance (a certificate of insurance must be provided to CMAA for each inspection period).
2. Maintain, and have available for inspection by any member of CMAA staff a driver log book
3. Maintain an MC and DOT number (to include proper documentation of such numbers in each vehicle)

D. Inspection of Vehicles

All shared ride vehicles will be inspected by CMAA employees (to possibly include, but not be limited to, airport police, airport maintenance or airport operations) to verify compliance with the above requirements. Vehicles that fail to pass inspection will be immediately removed from service at the airport, and may not be utilized until such inspection is passed. Failed vehicles must wait 72 hours before re-inspection.

E. Driver Appearance

All drivers should be well-groomed and neat in appearance. No t-shirts, cut-off jeans, or tank tops will be permitted. CMAA reserves the right to make a driver leave CMAA property if, in the opinion of the CMAA representative, the clothing does not present a professional image.

F. Driver Conduct

Drivers are to present a professional demeanor at all times, both in dealings with the public and with CMAA personnel. All drivers shall conform to, and be responsible for adhering to, the “CMAA Code of Conduct for Commercial Ground Transportation Providers” found in section IV.

G. Drivers to Remain with Vehicles

Drivers must remain at their vehicles at all times, except for use of restroom facilities, visits to restaurant/gift shop, visits to CMAA office(s), check on the status of a flight or to wait for a passenger. If waiting for a passenger, the driver must display a professional looking sign with the name of the company or event and the name of the passenger. Drivers may not be away from their vehicles for more than 10 minutes.

H. Documentation Requirements

All drivers are to have on their person a valid driver's license with all appropriate endorsements for the operation/type of vehicle being operated. A copy of current insurance and registration is to be in the vehicle at all times. This insurance must meet all state and local requirements. At the time of inspection, a route and fare schedule must be provided to the inspector (one schedule per company, not per vehicle inspected). This schedule must depict the shuttle's complete route structure to include pick-up times, pick-up locations, the days of the week the runs are made, and the associated fare.

I. Queuing

The only time a shared ride vehicle is to be on airport property is during the scheduled drop off/pick up time based on the company's published schedule, or if operating as a charter. If the vehicle is operating as a charter, the driver must have available the name of the company for which the charter has been booked, the air carrier and flight numbers of those individuals being met, as well as a contact name and phone number for the individual initiating the charter. There are a limited number of queuing slots available. If there are no queuing spots available when a driver enters the airport roadway system, the driver is to return at a later time. Double parking or parking in a spot that is not designated as a shared ride queuing area is not permitted. Drivers may utilize any of the airport parking lots to wait for a spot in the queue to open, however the driver will be responsible for the parking fee.

This regulation is not intended to prohibit any operator from leasing counter/booth space and processing on demand (walk-up) passengers from the leased location. On demand traffic generated through the use of leasehold is not considered solicitation.

All vehicles must advance to the next spot in the queue when the first vehicle in line departs. Any vehicle departing the queue line must re-enter the queue at the back of the line.

J. Shared Ride Rates

The rates schedules (below) represent the maximum allowable charge per vehicle for transportation of stranded airline passengers where request for transportation is initiated by the airline, or an offer of transportation is initiated by the shared ride operator (to include drivers of shared ride vehicles). This rates schedule is not intended to prevent operators from charging less. All rates are per trip, not per passenger.

| | |
|----------------------------|-------|
| Atlanta, GA (123 miles) | \$475 |
| Huntsville, AL (125 miles) | \$475 |
| Knoxville, TN (105 miles) | \$430 |
| Nashville, TN (144 miles) | \$525 |

IX. Baggage Delivery

A. Age of Vehicles

There is no age limit on baggage delivery vehicles.

B. Condition of Vehicles

All vehicles shall be maintained in good mechanical condition at all times. Vehicles must not be leaking any fluids (this does not include the condensation from the air conditioner). Each baggage delivery vehicle must be clearly identified as such by either permanent markings on the vehicle, or magnetic signs that are in place while the vehicle is in service as a baggage delivery vehicle. These signs must be visibly located on each side of the vehicle.

C. Registration of Vehicles

All baggage delivery vehicles must register with the ground transportation coordinator. The following information must be provided:

Vehicle Make
Vehicle Model
Vehicle Color
License Plate Number
Registration
Proof of Insurance

D. Driver Appearance

All drivers should be well-groomed and neat in appearance.

E. Driver Conduct

Drivers are to present a professional demeanor at all times in dealings with the public, airline and with CMAA personnel. Drivers and vehicles are to be at the airport only when an airline has notified the company of baggage to be delivered. Time on the curb is to be kept to an operational minimum.

F. Documentation Requirements

All drivers are to have on their person a valid driver's license with all appropriate endorsements for the operation/type of vehicle being operated. A copy of current insurance and registration is to be in the vehicle at all times. This insurance must meet all state and local requirements.

G. Inspection of Vehicles

All vehicles will be inspected by CMAA employees (to possibly include, but not be limited to, airport police, airport maintenance or airport operations) to verify compliance with the above aesthetic requirements. Vehicles that fail to pass inspection will be immediately removed from service at the airport, and may not be utilized until such inspection is passed. Failed vehicles must wait 72 hours before re-inspection.

X. Corporate Shuttle

A. Age of Vehicles

There is no age limit on corporate shuttle vehicles.

B. Condition of Vehicles

All vehicles shall be maintained in good mechanical condition at all times. Vehicles must not be leaking any fluids (this does not include condensation from the air conditioner.) Each corporate shuttle vehicle must be clearly identified as such by either permanent markings on the vehicle or magnetic signs that are in place while the vehicle is in service as a corporate shuttle vehicle. These signs must be visibly located on each side of the vehicle.

C. Driver Appearance

All drivers should be well-groomed and neat in appearance.

D. Driver Conduct

Drivers are to present a professional demeanor at all times, both in dealings with the public and with CMAA personnel. Drivers and vehicles are only to be at the airport when picking up or dropping off their employees and/or customers.

E. Drivers to Remain with Vehicles

Drivers must remain at their vehicles at all times, except for use of the restroom facilities, visits to restaurant/gift shop, visits to CMAA office(s), and check on the status of a flight or waiting for a passenger. If waiting for a passenger, the driver must display a professional looking sign with the name of the company and the name of the passenger. Drivers may not be away from their vehicles for more than 10 minutes.

F. Documentation Requirements

All drivers are to have on their person a valid driver's license with all appropriate endorsements for the operation/type of vehicle being operated. A copy of current insurance and registration is to be in the vehicle at all times. This insurance must meet all state and local requirements.

XI. **Transportation Network Companies**

A. General

1. Any TNC desiring to operate at the Chattanooga Airport must submit an application (Appendix 9) to CMAA and hold a valid permit issued by CMAA.
2. Any TNC desiring to operate at the Chattanooga Airport will be required to pay the contracted operating fee to CMAA before a permit will be issued.
3. Any TNC Operator will be required to sign a disclaimer stating they have received, read, and agrees to comply with the CMAA Commercial Ground Transportation Rules and Regulations.
4. A Transportation Network Operator may not solicit customers at the Chattanooga Airport.

B. Age of Vehicles

Any vehicle older than 10 years will be evaluated on a case by case basis by the CMAA Ground Transportation Coordinator.

C. Condition of Vehicles

All TNC vehicles shall be maintained in good condition at all times this shall include, but is not limited to, all of the following:

1. Operable horn.
2. Rear view mirror.
3. No foul odor.
4. Paint must match (be of the same color).
5. No rust.
6. Free of exterior body damage, and cracks in the windshield greater than 1”.
7. Properly functioning headlights, tail lights, turn signals, brake lights, emergency flashers, and windshield wipers.
8. Properly functioning environmental control system (heat/air conditioning)
9. Properly functioning seatbelts/safety restraints for all seating positions, including driver’s seat.
10. No fluid leaks of any kind (excluding the condensation caused by the air conditioner), nor any obvious pollution control problems
11. Tires shall have a minimum tread depth of 3/32 inch, with no steel, wire, or other such reinforcing material visible.
12. Trunk areas are to be kept clean, and available for storage of luggage. They must be secure at all times.
13. Clean and tear-free interior.
14. Proper exhaust system, muffler.

Vehicles with minor body damage may be allowed to continue operating at the discretion of the inspecting official if arrangements for repair have been made.

All TNC vehicles are to be maintained in a clean condition, both interior and exterior, free of any dirt or debris, except such as is normal due to certain weather conditions.

D. Inspection of Vehicles

At any time a CMAA employee (to possibly include, but not be limited to, airport police, airport maintenance or airport operations) may conduct an inspection of any TNC vehicle being used to provide TNC for the above compliance. TNC vehicles that fail to pass inspection will be immediately removed from service at the airport, and may not be utilized until such inspection is passed. Failed vehicles must wait 72 hours before re-inspection.

E. Identification of Vehicles

Any TNC Operator must clearly display a placard with the TNC's logo or brand on their TNC vehicle when acting as a TNC Operator.

F. Documentation Requirements

All drivers are to have on their person a valid driver's license with all appropriate endorsements for the operation/type of vehicle being operated. A copy of current insurance and registration is to be in the vehicle at all times. This insurance must meet all state and local requirements.

G. Driver Appearance

All drivers should be well-groomed and neat in appearance. No t-shirts, cut-off jeans, or will be permitted. CMAA reserves the right to make a driver leave CMAA property if, in the opinion of the CMAA representative, the clothing does not present a professional image.

H. Driver Conduct

Drivers are to present a professional demeanor at all times, both in dealings with the public and with CMAA personnel. All drivers shall conform to, and be responsible for adhering to, the "CMAA Code of Conduct for Commercial Ground Transportation Providers" found in section IV.

I. Drivers to Remain with Vehicles

Drivers must remain at their vehicles at all times, except for use of restroom or visit CMAA offices.

J. Staging of TNC Operators

A TNC Operator shall not wait curbside for a passenger unless a Transportation Network Service has been initiated by a customer. A TNC Operator not picking up a passenger shall at all times use the Auxiliary Parking Lot or pay parking until a Transportation Network Service has been initiated.

Appendix 2 CMAA Approved Taxicab Rates for permitted taxicabs

No owner or driver of a taxicab shall charge greater sum for the use of a taxicab than the rates set below:

- (a) There is hereby established a maximum rate to be charged for taxicab service. The maximum charge for actuating the meter shall be no greater than two dollars and fifty cents (\$2.50). The maximum charge for each one-tenth of a mile thereafter shall be no greater than twenty cents (\$0.20).
- (b) All taxicab drivers shall drive the shortest and most direct route in transporting a passenger from the point of pick-up to the point of destination unless requested otherwise by the passenger.
- (c) There will be an additional charge for waiting time which shall be forty cents (\$0.40) for each one (1) minute of waiting. Waiting time shall be charged only for stops or delays caused by the passenger(s) and shall not apply to stops or delays due to any other circumstances.
- (d) The above established rate shall apply to all fares originating and terminating at the Chattanooga Metropolitan Airport.

No taxicab driver shall permit, except as otherwise provided in this article, any other person to occupy or ride in such taxicab unless the person first employing the taxicab shall consent to the acceptance of additional passengers. There is hereby authorized a charge for additional passengers not to exceed one five dollars (\$5.00) per passenger when such passenger is accompanying the original passenger and proceeding to the same destination. When the additional passenger rides beyond the original passenger's destination he shall be charged only for the additional distance so traveled.
